TEKTELIC
communications

MEMO
Quick Start Guide

Commissioning

Prior Activating the device:

- Ensure the device is provisioned on the Network Server/Application
- Ensure the local LoRa Gateway has also been provisioned on the Network Server
- Ensure a local LoRa Gateway is online and within range of the device
- Apply desired custom configurations

Commissioning the Device Using LeapX Application

To install LeapX Application, please search for "TEKTELIC LeapX" on the Google Play Store or the Apple App Store. Once the app is installed, you can create an account or log in using the username and password of your existing TEKTELIC account.
Then follow the in-app instructions online.

ANDROID APP ON Google Play

Available on the App Store
